Welcome to: Keith Sheard - Car 10

Frank Manclark - Car 44

Wait a moment...don't we recognize that name?

Frank Manclark buys another LM62

I caught up with Frank by email following his communication that he had purchased Car 44 from Allon White's (previously owned by the late Steve Green).

I asked him how many LM62's he had owned and he came back with a very nice letter and enclosed some examples of his great artwork of previous cars. I quote from his recent letter...

"My affinity with the Morgan LM62 started when I saw one in 2002 in Thomson & Potters showroom in Scotland, I immediately coveted it, but it took me a year to accumulate the necessary funds.

My business is precarious at the best of times and after two years I had to sell it to finance business / family. I then saved and bought another LM62 and this procedure carried on for a further thirteen years, eventually having bought and sold three LM62 4/4 and one LM62 +8.

I personally feel that Morgan reached their pinnacle with the LM62. The body shape with the hardtop, the colour combination green/cream and the fitments combine to make a superb combination, which I feel is still unbeatable today. I feel privileged that I now have what will be my last Morgan a coveted LM62 4/4."

Franks art work appears on the cover of this months Bulletin and you would have to go to California to see the original at Morgan West dealership.

2015 - Tour 'Via Mala'

As described in earlier Register Updates and Bulletins the final planning for the trip to Silvaplana is now, well and truly underway.

We now have 12 cars registered for the hotel in Silvaplana and a group of 4 cars travelling together from the UK and meeting up with others en-route.

It may be too late to register your interest but might be worth contacting Robert Merker directly by email Robert@merkers.ch or you will miss out on this great opportunity to drive through Europe to some of the most beautiful roads and scenery in the world!

Touch Up paint

It has taken some time! But we now have a 'Le Mans Green' touch up kit available from Chipex. Check out their product range www.chipex.co.uk and use the code "Le Mans Green SPECIAL" for the correct colour for our cars. As an incentive I have been able to negotiate a discount for the Register so enter the code "Large" in discount field for an order for the smallest kit 'Chipex Lite' for £ 22.95 to receive a Chipex Road Rash Kit worth £ 37.95 for no extra charge (excl. post and packing). In addition you can order aerosol sprays (400ml) for £ 15.00 but these have to be ordered directly through the owner Johnny@chipex.co.uk. Details will be on our website under 'Regalia'.

So, a shorter Bulletin this time but I am sure the next one will be full of pictures of the Swiss Alps!!
